## CHILDREN'S MUSIC PROGRAM.

ONE OF THE MOST UNIQUELY interesting programs yet presented by the Rock Island Musical club was that given at the New Harper yesterday afternoon. It was entitled "Music for Children, Old and Young," and attracted an unusually large attendance of the members. The program was furnished by Mrs. F. W. Reimers, Miss Josephine Schneider, Miss Dorothy Placanis, piano; Mrs. T. B. Reddy, voice; Miss Mary Alice Williams, violin, and Mrs. Myra Bear-Goldsmith, reader. Preceding each number there was a brief explanatory lecture by Miss Katherine Gest.

Mrs. F. W. Reimers, president of the club, announced a complimentary recital for the membership to be given at the Harper Thursday evening, Feb. 22, the program to be furnished by Mrs. B. J. Lachner, Rock Island, contralto, and Miss Agnes Hope Pillsbury, Chicago, pianist. There will be an admission charge to nonmembers wishing to attend the recital. For the Schumann-Helmske recital, to be given at the Illinois the evening of April 7 Mrs. Reimers announced the appointment of the following committee chairman:

Tickets—Miss F. K. Rhoads.  
Advertising—Miss Katherine Gest.  
Program—Miss Elsa Simon.  
Boxes—Mrs. C. E. Sharpe.

The president added the information that there would be a special admission charge concession to the membership of the club for the Schumann-Helmske recital. This is regarded in musical circles as the event of the year in the tri-city. It is a large undertaking by the Rock Island Musical club, requiring a cash guarantee of \$1,200 to secure the appearance of the distinguished artist here.

Chicago, Jan. 25.—Absolutely the best guess that can be made in wheat is that the leaders have cut their lead in two and are awaiting reassessment of a little firm sentiment. Without their help May wheat seems destined to be on uneasy ground when above 95c. The coarse grains are on solid ground and the present around 48c spread between May corn and May wheat may be reduced to 35c or 40c before March 1. The local crowd may assist minor wheat bulges after the recent decline, but will hardly cling to the advances. Firmness of corn will undoubtedly attract buyers.

## SKIN DISEASES HUMORS IN THE BLOOD

Nature has made ample provision in the moisture and sunshine of the air for the outward protection and healthy condition of the skin. But the more important work of nourishing the cuticle has been left to an inward source—the blood. It is from the circulation that the pores and glands receive their stimulus, and the fibrous tissues are all preserved in a healthful state because of constant nutriment supplied by the blood. It is only when the circulation becomes infected with humors or acids that we are troubled with skin affections. The humors producing these troubles are carried through the circulation direct to the skin, and the irritating or inflammatory effect remains until the blood is cleansed. S.S.S. cures Skin Diseases, because it is the greatest of all blood purifiers. It goes into the circulation and REMOVES the acids and humors which are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, rashes, and all eruptions of the skin. When S.S.S. has driven out the humors every symptom passes away, the skin is again nourished with cooling, healthful blood, natural evaporation is renewed, and the skin becomes soft and smooth. ## IN GRAIN MARKETS.

**Liverpool Grain.**  
Liverpool, Jan. 25.—The market at the opening was steady, although values were 1/4 to 1/2 lower. The easier American cables yesterday were offset by lighter supplies here and the steadiness in Buenos Aires market at the close. Following the opening there was an advance of 1/4 to 1/2 with a large firm here buying March, and shorts covered on a better spot demand and lighter Argentine offers. Later and before mid-day realizing developed on a small scale and prices reacted from the high of the morning. European crop advices continue favorable, this being especially so of Russia, where there is plenty of cash and the outlook favorable. Russian, Indian and Australian offers continue liberal, and there was a small inquiry for parcels with English provincial markets lower. At mid-day the market was firm, but dull, and prices unchanged to 1/2 lower than yesterday. The corn market on the whole was dull. After opening unchanged, the plate grade advanced 1/4 on the firmness in spot and the security of Argentine offers. The American grade was easier with larger American offers.
